## SKILLS

- HTML , CSS
- Javascript
- Typescript
- C++
- C#
- React
- Java
- Python
- Networking , Security

## LANGUAGE

- English
- Arabic
- Armenian
- Russian

## PROFESSIONAL PROFILE

Courteous and enthusiastic. I am interested in CS and everything in its orbit. Since childhood, I was fascinated by it and was in many robotics competitions. I am keen to gain more knowledge in the field. Because of this, I am looking for a company willing to offer me a placement among their developers. In return, I offer my total commitment and be a pleasant and friendly addition to your team. I am therefore currently looking for an internship.

## EXPERIENCE

### Intern

During my six-month internship at EPAM Systems, I specialized in front-end development, gaining hands-on experience in HTML, CSS, JavaScript, and React. I honed my skills in creating visually appealing and interactive web interfaces while embracing the principles of responsive design and component-based development. This experience amplified my ability to translate design concepts into functional, user-centric applications, equipping me to contribute effectively to dynamic development projects.

## OTHER

I've participated in a diverse range of programming competitions, including the ICPC Regional, focusing on logical problem-solving, as well as EPAM's specialized Web Programming Contest held in collaboration with the European University of Armenia. These experiences have allowed me to excel in both logical and web-centric programming challenges, showcasing my adaptability and proficiency across different domains of programming.

I've completed coursework in networking and security at university, covering essential principles in network architecture, protocols, and cybersecurity. These classes provided a strong foundation in understanding modern networks and ensuring digital security.

## EDUCATION

### Bachelor of Information Technologies (Current)

European University of Armenia

### Other

Tumo Center For Creative Technologies

Internship about Security at Institute for Information and Automation Problems of the National Academy of Sciences of RA.
